Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3634

1. Claims 1-33 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

These claims recite the following claim language for which its intended meaning is not understood:

Claims 1,19 "is sized and shaped adapted";

Claims 2,20 "is bent to shape";

Claims 10-12,20,26,27 "is embodied as".

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-15,19-30 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Drozt. Drozt discloses a flexible window screen 20,20' comprising a screen material 24,24' which responds to the claimed fabric shelter, a retention frame 22 which is adapted to be deformed for applying an urging force against the corners of a vehicle window frame.

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 3634

Claims 16-18, 31-33 are rejected under 35 U.S.C. 103(a) as being unpatentable over Drozt in view of Mitchell et al. While Drozt does not disclose the fabric shelter as having a positioning split, Mitchell et al disclose a sunshade comprising a positioning split 135, wherein, to incorporate this teaching into the screen of Drozt for the purpose of accommodating window frames of various sizes and dimensions would have been obvious to one of ordinary skill in the art.

4. The following prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Steenburgh, Smith, Huang '262 and '460, Shink, Tsai, Zheng.

5. Any inquiry concerning this communication should be directed to David M. Purol at telephone number (571) 272-6833.
